***Prior Art Citation***

**The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.**

Morishita et al. (5,396,480), Yokoi et al. (5,732,062) and Dekker et al. (2005/0099924), all discloses an optical recording apparatus having the ability of detecting and controlling the recording power of the laser.

***Reasons For Allowance***

**The following is an Examiner's Statement of Reasons for Allowance:**

**Re claims 1-20**

The prior art of record alone or in combination does not teach or suggest the method of recording data on an optical disk while using a running optimum power control having the combination of steps with their recited process, along with having (and taken the claim limitation as a whole in combination with) measuring a front power level representing an optical power of a front side of the reflected optical spot, and a rear power level representing an optical power of a rear side of the reflected optical spot, and controlling the recording optical power of the optical spot based on the front and rear power levels, as set forth in claims 1-20.

**Re claims 21-31**

The prior art of record alone or in combination does not teach or suggest the optical disk drive for driving an optical disk by using a running optical power control having the combination of elements and taken the claimed limitation as a whole in combination with the OPC block for receiving outputs of the photodetectors to detect a from power level and a rear power level of the reflected optical spot, whering the OPC block detects a recorded state of the mark by calculating an index of the recorded state based on the front and rear power levels, and controls the recording optical power based on the index of the recorded state during the running OPC, as set forth in claims 21-31.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
